RE: **The State Bar of California and State Compensation Insurance Fund**

Dear Policyholder:

The State Bar of California and the State Compensation Insurance Fund (State Fund) are jointly writing you about your current Workers Compensation insurance coverage.

Recently the State Bar of California issued a Request for Proposal (RFP) for brokers and carriers interested in sponsoring a workers compensation program for their members. After ten years, The State Bar has decided to end its business relationship with State Fund.

Thus, the State Fund is unable to renew your policy in the State Bar of California's program. State Fund will be offering an alternative insured association, Group 388 - Attorneys and Accountants Association, Inc.

This program will provide you with the same policy discount you currently receive. As with all group associations, paid dues and membership are required for participation in the group program.

As your policy comes up for renewal, State Fund will provide you with information on both the group and individual policy options available to you.

The State Fund has provided quality coverage and helped California employers provide a safe workplace for more than 90 years. Should you have any questions about this process, please contact your broker or State Fund's Customer Service Center at 877-405-4545.

If you have questions for the State Bar, please call the State Bar's Member Call Center, 888-800-3400.

Sincerely,

STATE COMPENSATION INSURANCE FUND

STATE BAR OF CALIFORNIA
